

Phoenix presents

## Digital Sparks

Tuesday 27 May - Sunday 1 June 11am - 5pm

Our Spark Festival programme for 2014 is packed with amazing interactive digital experiences and activities for all ages, including handpicked films, unique free exhibitions and fascinating one-day workshops giving children the opportunity to play, learn and invent with the latest technologies.

Come to Phoenix and join in with these FREE digital delights...

Swiss artist and designer Camille Scherrer is combining art and technology to transform Phoenix into an enchanting world, with two inventive and interactive digital artworks inspired by the mountain landscape where she grew up.

### Into the Woods

In this innovative installation your shadow has a life of its own! Enter a magical woodland where creatures hide, just waiting to be discovered.

### Le Monde des Montagnes

Using the latest augmented-reality technology, this very special book is brought to life and incredible animated worlds emerge from its pages.

There will also be loads of fun activities, from robot play areas to drop-in 3D printing workshops to spark the imagination.

Further details about our other events are available in the Phoenix monthly brochure and website [www.phoenix.org.uk](http://www.phoenix.org.uk)
